NOTICE the Louisiana Department of Natural Resources, Office of Coastal Management (OCM) has received the below application for a Coastal Use Permit (CUP) in accordance with the State and Local Coastal Resources Management Act of 1978, as amended, (Louisiana R.S. 49:214.21-214.41), and the regulations of the Coastal Resources Program. Applications for the proposed work may be inspected at 617 North 3rd Street, Room 1076, Baton Rouge, LA or on the OCM web page at: http://dnr.louisiana.gov/index.cfm?md=pagebuilder&tmp=home&pid=591. Copies may be obtained upon payment of cost of copying. Written comments, including suggestions for modifications or objections to the proposed work and stating the reasons thereof, are being solicited from the public. Comments must be received within 25 days of the date of publication of this notice. Comments should be uploaded to our electronic record, but may be mailed, faxed or emailed to the designated OCM Reviewer. All comments must contain the appropriate application number and the commenter's full name and contact information.

Application also has been made to the Louisiana Department of Environmental Quality, Office of Environmental Services (DEQ) for a Water Quality Certification (WQC) in accordance with La. R. S.30: 2074(A)(93), and Section 401 of the Clean Water Act (P.L. 95-217). Additional information is on file with the above office, and may be inspected at any time between 8:00 a.m. and 4:30 p.m. weekdays. Copies may be obtained upon payment of cost of copying. Comments concerning this application can be filed with the Office of Environmental Services within 20 days of this notice to the below address. The public comment period for CUP and WQC applications begins on the date of publication of notice in the official journal (The Advocate), in accordance with LAC 43: I. 723(C)(5)(c). OCM will provide this date on request.

Additionally, interested parties are hereby notified that application has been received by the District Engineer for the Department of the Army permit to authorize the following pursuant to: Section 404 of the Clean Water Act (86 Stat. 816; 33 USC 1344) and/or Section 10 of the River and Harbor Act of 1899 (33 USC 403). The notice and notice policies of the Corps of Engineers - New Orleans District (CEMVN) can be found on their webpage at

http://www.mvn.usace.army.mil/Missions/Regulatory/PublicNotices.aspx.

Any person may request, in writing, within the comment period specified in this notice, that a State or Federal public hearing be held to consider this application. Requests for public hearings shall state, with particularity, the reasons for holding a public hearing and must contain the name and contact information of the requester.

NAME: COASTAL PROTECTION AND RESTORATION AUTHORITY; % COASTAL ENGINEERING CONSULTANTS, INC.; 5745 ESSEN LANE, SUITE 200; BATON ROUGE, LA 70810; ATTN: GREG GRANDY

LOCATION: Terrebonne Parish, LA; Lat. 29° 02' 47.76"N, Long. 90° 48' 19.44"W; Ship Shoal Borrow Area @ Lat. 28° 55'28.80"N, Long. 90° 55' 16.14"W; Whiskey 3A Borrow Area @ Lat. 29° 01' 11.57"N, Long. 90° 44' 36.24"W; Sections 2, 3, & 10; T24S-R16E; Whiskey Island, LA. DESCRIPTION: Mining of approximately 11,315,940 cu. yds. of sand from the Whiskey 3A borrow area (2,920' x 1,300') and Ship Shoal Lease Block 88 (6,959' x 4,375') to create a beach and dune marsh habitat on Whiskey Island (TE-100). Mined sediment will be transported via a 30" sediment pipe. A 500' wide conveyance corridor will be required from each of the borrow areas. No dredging will be required for the corridors. For the beach and dune restoration; material will be placed along approximately 23,500' of shoreline. The dune will be constructed with a typical width of 232' at the base and 100' at the crest. The beach fill will be placed approximately 464' wide along the length of the shoreline. A dike will be constructed to contain fill material and a sand fence will be installed. For the marsh restoration; approximately 972,000 cu. yds. of mixed sediment will be placed and planted within a 5,500' x 1,000' area surrounded by primary and secondary containment dikes to prevent fill from entering the adjacent mangroves on the bay side of the island. All proposed containment dikes will be constructed by excavating borrow channels adjacent to the dikes. Approximately 447,800 cu. yds. of material will be excavated and used for construction of the dikes. Approximately 2,784 acres

of waterbottom and beach habitat may have been impacted by activities as originally proposed. Activities proposed under the revision may increase may impact an additional 801 acres. Approx. 3,585 acres of beach and dune habitat will be impacted as a result of this project.* ERRATUM: Interested parties are hereby notified that the Joint Public Notice for the above permit application was published in the September 10, 2014 issue of *the Advocate. This erratum includes the addition of* the Bureau of Ocean Energy Management to the notice.
